

To whom it may concern

Trith-Saint-Léger, the 01/01/2020

Object: Attestation of non-radioactivity

Dears,

Our rolling mills are fed by billets issued from our steel plant of Trith-Saint-Léger.

Some controls of radioactivity are performed during the process of production of billets: raw materials, castings and finished products.

Several procedures are realized in order to protect our people and ensure the non-radioactivity of our products.

Should you need any further technical information, please contact our Qualified Expert in Radioprotection:

Mr David SCULIER

Phone: +33 (0)3 27 14 20 91

E-mail: [d.sculier@beltrame-group.com](mailto:d.sculier@beltrame-group.com)

This attestation is retroactive for all deliveries of these products from 01/01/2020 to 31/12/2020.

Yours sincerely,

Sébastien CROM  
Quality Manager
