

DONALAM

AFV BELTRAME GROUP

Date: 17.01.2025

DECLARATION OF CONFORMITY
with REACH Regulation (CE no. 1907/2006)

With reference to hot rolled bars manufactured within Donalam S.R.L. hereby we highlights the following issues:

- The rolled profiles are considered articles, in which no substance is present that can intentionally be released during the normal or predictable use. No obligation for registration therefore applies (Art. 7 of the regulation).
- The semi-products (billets, blooms) are considered articles not containing deliberately released substances, as defined in the Eurofer Position Paper dated 28/10/2008 and confirmed by ECHA in the document A.1/DF/tk D(2009)3574 dated 02/09/2009 (therefore without any registration obligation).
- Our steel products are therefore exempt from the obligation of any safety data sheet (Art. 31 of the Regulation).
- None of the substances present in the supplied steel products is included in the annex XIV and XVII to the Regulation or in any “candidate list” of substances subject to authorization, issued by the European Chemical Agency – ECHA.
- No substance of very high concern (SVHC) is contained in our steel products, in accordance with REACH SVHC List.

Donalam S.R.L. will keep its customers informed on any possible evolution of this topic related to its products.
